University of Maryland

Joint Institute for Food Safety and Applied Nutrition (JIFSAN)-
Center for Food Safety and Security Systems (CFS3)

NEW JIFSAN-CFS³ COURSE OFFERING!

“Regulatory Economics for Food, Health, and Environmental Risk Management”

NEW DATES:

**Tuesdays and Thursdays from February 2 through February 23, 2023
1:00 - 4:00 PM EST via ZOOM**

We are excited to offer this new course in conjunction with the George Washington University Regulatory Studies, USDA office of Risk Analysis and Cost-Benefit, and the Society for Benefit-Cost Analysis.

The topics covered in the course are applicable for all Agencies and the goal is to train professionals how to conduct the types of economic analysis needed for evaluating risk management options in support of food, health, environmental, and safety regulations. Course instructors comprise a group of economists and risk assessors whose role it has been to review such analysis as part of the United States rule making process. Additionally, some have been involved in writing Agency Guidelines and have worked for the U.S. Department of Agriculture (USDA), the U.S. Food and Drug Administration (FDA), the U.S. Environmental Protection Agency (EPA), U.S. Department of Health and Human Service (HHS), and the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget (OMB) within the White house.
